How it works:
1. You downloand and install mtb_nk_setup1.25.3.exe software (Without pluging any box)
2. You plug box, turn on software, plug phone, click phone info. It will display frame to write login and password to on-line unloock
3. Click "Unlock"
4. After few minutes your phone is unlocked

Before buy please read:

Only owner of MT-Box can use this software. Without device software doesn't work !
Software works only under Win XP!

Server is always under upgrade and all credits can be used for any supported phones. For few phone models like Panasonic x70 server count 2 x credits , for few count 1 x credit. Server works 24/7/365 in REAL TIME. Also you can calculate logs and codes for other people (few phone models).

Complete contains:
- Griffin logger
- Griffin access software (server software)
- Pinouts for all supported phones
- Password and user name for your account
- Personal update for your Griffin box
